

Business trip to Brazil?

It has become more pleasant thanks to Belofloripa.

Good news:

Belofloripa (member of Brascam) has recently established an exclusive partnership with a classical airline, which results in unique discounts for Belofloripa's clients and business relations on their tickets to Brazil.

This enables the discovery of all the business opportunities that Brazil has to offer in a more economical way.

Belofloripa is very proud to announce this partnership as they are the first consultancy firm in Belgium to establish such a cooperation with a classical airline.

Thanks to this cooperation Belofloripa's clients and business relations will be able to organize their business trips to Brazil in a more economical way.

Due to the very good and solid relation that Belofloripa holds with Brascam, the company would like to extend the benefits of its newest partnership and offer them to the staff and members of Brascam as well.
